

## WiME Video Playlist

The following videos were recorded as part of the WiME online events in November 2020.

### The events

The table below shows the companies that took part in each of the four November online events conducted using the Zoom platform. Each company was allocated 10 minutes for presentations, videos etc. The events lasted approximately 90 minutes in total and included lots of opportunities for the audience to ask questions via the Q&A system.

	4th November 2020	11th November 2020	18th November 2020	25th November 2020
<b>A</b>	 <p>Hull based engineering consultancy serving the global energy markets</p>	 <p>Port operator with 21 ports including Goole, Hull, Grimsby and Immingham</p>	 <p>Industry led, funded by the CITB levy</p> <p>Organisation supporting the skills needs of the construction sector in the UK</p> <p>Supported by KWL and Houlton</p>	 <p>Part of the British Army looking after engineering and logistics</p>
<b>B</b>	 <p>International construction business with a specialist plant hire operation in Grimsby</p>	 <p>Global professional engineering institution</p> <p>Supported by AAK</p>	 <p>Wind turbine maintenance company operating globally</p>	 <p>Global professional engineering institution</p>
<b>C</b>	 <p>Award winning software development company based in Hull</p> <p>Supported by C4DI</p>	 <p>Medical equipment manufacturer with wound care division based in Hull</p>	 <p>Manufacturer of personal protection equipment (PPE)</p>	 <p>Global Leader in offshore wind with significant operations from Grimsby</p>
<b>D</b>	 <p>Diversified energy manufacturing and logistics company with an Oil Refinery at Immingham</p>	 <p>Renewable energy company operating a wind turbine blade factory in Hull</p>	 <p>Domestic and commercial heating boiler manufacturer based in Hull</p>	 <p>Global speciality chemicals company based in East Yorkshire</p>

The WiME team took the opportunity to record each of the sessions and develop videos for each of the companies. This allows them to be viewed at any time by individuals or as part of a classroom activity. They are hosted on the LogonMoveOn website – link below

The table below shows details of each speaker, their role, their education pathway and the industry they work in

<b>Speaker</b>	<b>Company</b>	<b>Role</b>	<b>Education pathway</b>	<b>Industry</b>
Daniela	OSL Consulting Engineers	Chemical Engineer	Degree and Masters in Chemical Engineering	Engineering and Design consultancy
Natasha		Electrical Engineer	Advanced and Higher Apprenticeship then a degree and MSc whilst working	
Rumaanah		Chemical Engineer	Degree in Chemical Engineering	
Tracy	Laing O'Rourke	Principal Engineer	Degree in Civil Engineering	Construction
Chloe		Health and Safety Assurance Manager	Masters in Civil Engineering	
Anna		Business Delivery Manager	Joined directly from school	
Rachael	Sauce	Business Strategist	Apprenticeship	Software Development
Mel		Technical Account Manager	BTEC Computer Science	
Alexandra		Software Developer	Degree and MSc Computer Science	
Tillie		Software Developer	Apprenticeship in Web development	
Bryony	Phillips 66	Lead Process Engineer	Degree in Chemical Engineering	Refining
Del		Area Manager	Masters in Chemical Engineer	
Charlotte	ABP	Marine Information Officer	Joined directly from school. Has gained qualifications whilst working	Ports and Logistics
Sajalu	ICHEME/AAK	Process Engineer /Chemical Engineer	Degree in Chemical Engineering	Manufacturing
Bindiya	Smith and Nephew	Research and Development Engineer	Degree in Medical Engineering	Manufacturing
Kirsty		Development Engineer	Masters in Biomedical Engineering	
Raimonda		Quality Engineering	BTEC Medical Science then Masters in Industrial Chemistry	
Charlotte		Development Engineer	Degree in Medical Engineering	

Karen	KWL	Senior Supervisor	Apprentice joiner	Construction
Georgia	GEO Houlton	Assistant Quantity Surveyor	Degree in Quantity Surveying	Construction
Sophie	GEV Wind	Operation Co-ordinator	Apprenticeship – accountancy, project management	Wind Turbine Blade Maintenance
Liza		Admin Assistant and HSE Professional		
Kirsty		Rope Access Wind Turbine Technician	Joined after working in the hospitality industry. Gained relevant qualifications whilst working for GEV	
Ashleigh	Ansell	Research and Development Chemist	Degree in Chemistry	Manufacturing
Helen	Ideal Heating	Manager of Industrial Engineering	Went into work straight from school and gained chartership as a mechanical engineer whilst working	Manufacturing
Christel		Head of Programme Management	Vocational route into Organic Chemistry	
Joanne		Engineering and Innovation Manager	Degree in Mechanical Engineering	
Alison	DePuy Synthes	Biomedical Engineer	Degree in Mechanical Engineering	Medical Device Manufacturing
Dinalie		Biomedical Engineer – product development	Degree in Mechanical Engineering	Medical Device Manufacturing
Courtney	Orsted	Wind Turbine Technician	Apprenticeship	Offshore Wind Power
